B. Each parish president is hereby authorized and directed to establish an office of homeland security and emergency preparedness for the respective parish.

C. Each parish president shall maintain a homeland security and emergency preparedness agency which, except as otherwise provided under this Chapter, has jurisdiction over and serves the entire parish.

The state of emergency may be terminated by executive order or proclamation, but no state of emergency may continue for longer than thirty days unless extended by the parish president. The state of emergency or disaster may be terminated by the

governor, a petition signed by a majority of the surviving members of either house of the legislature, or a majority of the surviving members of the parish governing authority. The declaration of a local emergency will serve to activate the response and recovery program of the local government.

F. In addition to any other powers conferred upon the parish president by the constitution, laws, or by a home rule charter or plan of government, such authority may do any or all of the following:

(1) Suspend the provisions of any regulatory ordinance prescribing the procedures for conduct of local business, or the orders, rules, or regulations of any local agency, if strict compliance with the provisions of any ordinance, order, rule, or regulation would in any way prevent, hinder, or delay necessary action in coping with the emergency.

(2) Utilize all available resources of the local government as reasonably necessary to cope with the local disaster or emergency.

(3) Transfer the direction, personnel, or functions of local departments and agencies or units thereof for the purpose of performing or facilitating emergency services.

(6) Prescribe routes, modes of transportation, and destinations in connection with evacuation within the local government's jurisdiction.

(7) Control ingress and egress to and from the affected area, the movement of persons within the area, and the occupancy of premises therein.

(8) Suspend or limit the sale, dispensing, or transportation of alcoholic beverages, firearms, explosives, and combustibles.

G. In the event of an emergency declared by the parish president pursuant to this Chapter, any person or representative of any firm, partnership, or corporation violating any order, rule, or regulation promulgated pursuant to this Chapter, shall be fined not more than five hundred dollars, or confined in the parish jail for not more than six months, or both.

H. No organization for homeland security and emergency preparedness established under this Chapter shall be employed directly or indirectly for political purposes.

→§ 733. Interstate Emergency Preparedness and Disaster Compact

A. This state enacts into law and enters into the Interstate Emergency Preparedness and Disaster Compact with all states, as defined therein, which states have enacted or shall hereafter enact the compact in the form substantially as follows:

B. The Interstate Emergency Preparedness and Disaster Compact, heretofore in force in this state by virtue of execution pursuant to this Chapter, is hereby confirmed and codified. The compact is and shall hereafter be in effect with any and all jurisdictions which have joined or which may hereafter legally join therein in the form substantially as contained in this Section, provided that such other jurisdiction or jurisdictions have signified their joinder with this state by enactment without limitation as to parties or in some other manner sufficient in law to make it clear that joinder has been effected with this state.

C. The contracting states solemnly agree:

Article 1. The purpose of this compact is to provide mutual aid among the states in meeting an emergency or disaster. The prompt, full, and effective utilization of the resources of the respective states, including such resources as may be available from the United States government or any other source, are essential to the safety, care, and welfare of the people thereof in the event of an emergency or disaster, and any other resources, including personnel, equipment, or supplies, shall be incorporated into a plan or plans of mutual aid to be developed among the emergency preparedness agencies or similar bodies of the states that are parties hereto. The directors of emergency preparedness of all party states shall constitute a committee to formulate plans to take all necessary steps for the implementation of this compact.

Article 2. It shall be the duty of each party state to formulate plans and programs for application within such state. There shall be frequent consultation between the representatives of the states and with the United States government and the free exchange of information and plans, including inventories of any materials and equipment available. In carrying out such plans and programs the party states shall, so far as possible, provide and follow uniform standards, practices, and rules and regulations.

Article 3. Any party state requested to render mutual aid shall take such action as is necessary to provide and make available the resources covered by this compact in accordance with the terms hereof; provided that it is understood that the state rendering aid may withhold resources to the extent necessary to provide reasonable protection for such state. Each party state shall extend to the civil defense forces of any other party state, while operating within its state limits under the

terms and conditions of this compact, the same powers (except that of arrest unless specifically authorized by the receiving state), duties, rights, privileges, and immunities as if they were performing their duties in the state in which normally employed or rendering services.

Article 4. Whenever any person holds a license, certificate, or other permit issued by any state evidencing the meeting of qualifications for professional, mechanical, or other skills, such person may render aid involving such skill in any party state to meet an emergency or disaster and such state shall give due recognition to such license, certificate, or other permit as if issued in the state in which aid is rendered.

Article 5. No party state or its officers or employees rendering aid in another state or in its own state pursuant to this compact shall be liable on account of any act or omission in good faith on the part of such forces while so engaged, or on account of the maintenance or use of any equipment or supplies in connection therewith.

Article 6. Inasmuch as it is probable that the pattern and detail of the machinery for mutual aid among two or more states may differ from that appropriate among other states party hereto, this instrument contains elements of a broad base common to all states, and nothing herein contained shall preclude any state from entering into supplementary agreements with another state or states. Such supplementary agreements may comprehend but shall not be limited to provisions for evacuation and reception of injured and other persons, and the exchange of medical, fire, police, public utility, reconnaissance, welfare, transportation and communications personnel, equipment, and supplies.

Article 7. Each party state shall provide for the payment of compensation and death benefits to injured members of the response forces of that state and the representatives of deceased members of such forces in case such members sustain injuries or are killed while rendering aid pursuant to this compact, in the same manner and on the same terms as if the injury or death were sustained within such state.

Article 8. Any party state rendering aid in another state pursuant to this compact shall be reimbursed by the party state receiving such aid for any loss or damage to, or expense incurred in the operation of any equipment answering a request for aid, and for the cost incurred in connection with such request; however, any aiding party state may assume in whole or in part such loss, damage, expense, or other cost, or may loan such equipment or donate such services to the receiving party state without charge or cost, and any two or more party states may enter into supplementary agreements establishing a different allocation of costs as among those states. The United States government may relieve the party state receiving aid from any liability and reimburse the party state supplying forces for the compensation paid to and the transportation, subsistence, and maintenance expense of such forces during the time of the rendition of such aid or assistance outside the state and may also pay fair and reasonable compensation for the use or utilization of the supplies, materials, equipment, or facilities so utilized or consumed.

Article 9. Plans for the orderly evacuation and reception of the civilian population as the result of an emergency or disaster shall be worked out from time to time between representatives of the party states and the various local areas thereof. Such plans shall include the manner of

transporting such evacuees, the number of evacuees to be received in different areas, the manner in which food, clothing, housing, and medical care will be provided, the registration of the evacuees, the providing of facilities for the notification of relatives or friends, and the forwarding of such evacuees to other areas or the bringing in of additional materials and supplies, and all other relevant factors. Such plans shall provide that the party state receiving evacuees shall be reimbursed generally for the out-of-pocket expenses incurred in receiving and caring for such evacuees for expenditures for transportation, food, clothing, medicines and medical care, and like items.
